METHODOLOGY

Class work and field work

On novemberth 26 kev came and told class three
Archaeologist he told us all about all the things people
found under ground. We went to some fields at Linton
and he called the little huts and bubs earth
works. To help show the earth works we all found
a place to stand on and then we knew
were the earth works start and end. Then he
told us all about Hachur and how they mark
how steep the bank is. He showed it like this

↑ and this  and this  and we went in

all kind of fields and we find a field
with an enclosure and we holded hands and
went around the enclosure, and drewed it
in groups. when we walked back to school we
were cold like an ice snowman.
